

PRESS RELEASE

Brussels, 29 April 2019

FEFANA/EAAP joint scientific session on the role of specialty feed ingredients in meeting societal challenges EAAP 2019, 28 August 2019, Ghent (BE)

The high-quality program of the joint EAAP/FEFANA session will showcase the excellence of animal science pertaining to animal nutrition with emphasis on practical application. The conference shall stimulate discussions on innovation within the domain of specialty feed ingredients targeted at meeting societal challenges with focus on the mitigation of environmental impacts of livestock farming and the reduction of antibiotic use in the view of tackling the threat of antimicrobial resistance.

The one-day meeting will be composed of two complementary sessions, with the morning session focusing on the state of science in the realm of specialty feed ingredients and society's concerns; and the afternoon session dedicated to presenting innovative solutions and success stories.

Prof. Em. Dr Johanna Fink-Gremmels, chair of the one-day EAAP/FEFANA session affirms that: *"This meeting is the perfect occasion to build a bridge between latest developments and discoveries in science and practical application in the feed industry. EAAP and FEFANA are striving for strengthening the role of science as the basis for innovating animal nutrition and for building a more connected public-private network of expertise in the field"*.

More about the EAAP 2019, including registration details, are available from the official website of the event: <https://www.eaap2019.org>.

About FEFANA

FEFANA (EU Association of Specialty Feed Ingredients and their Mixtures) is the united voice of the specialty feed ingredients business in Europe. Its membership comprises manufacturers and traders of feed additives, functional feed ingredients, premixes and other mixtures of specialty ingredients that enter the food chain via feed. FEFANA facilitates the dialogue between EU institutions and feed business operators while promoting feed and food safety and a fair and competitive market. For additional information please contact the FEFANA Secretariat at info@fefana.org or visit www.fefana.org.

About EAAP

The European Federation of Animal Science or EAAP is an international non-governmental organisation which aims to improve the knowledge and the dissemination of research results of domestic animal farming. Membership is open to scientists, animal breeders and administrators. The association was founded in Paris in 1949, and has its headquarters in Rome, Italy. The declared aim of the association is to: "promote the improvement, organization and enlightened practice of animal production by scientific research, the application of science and co-operation between national animal production organisations, scientists and practitioners of member countries". For additional information please contact the EAAP Secretariat at: eaap@eaap.org or visit <http://www.eaap.org>.
